

# Newland Park Kindergarten

## PHILOSOPHY

At Newland Park Kindergarten, we embrace the unique potential of every child, recognising that each learns in their own way and at their own pace. Our commitment is to provide a warm and nurturing environment where children feel respected and safe. We inspire them to wonder, explore, and experiment, fostering their natural curiosity. Through engagement with nature, children become active participants in their learning journey, co-constructing their development and understanding of the world.

We recognise the vital role families play in a child's education, acknowledging them as the children's first teachers. We deeply value meaningful connections with families, working in partnership to support and nurture each child's growth. Our approach is inclusive and respectful, ensuring that all families feel welcomed and engaged in the kindergarten community. By celebrating the rich cultural diversity within our multicultural community, we enhance the learning experience for everyone involved.

Our educators are dedicated to being lifelong learners, committed to continuous growth and development. We strive to create a learning environment that encourages safe risk-taking and provides opportunities to connect with nature and the surrounding community. By acknowledging the Kaurua People as the traditional owners of the land, we honour their enduring connection and integrate this respect into our teaching practices.

Our goal is to inspire and empower children, families, and educators alike in a shared journey of learning.

WE LOVE NATURE!
